Subject: Denial of Request for Release of Small Mining Operation Permit,  
Keystone Ridge/Mammoth Project, S/023/085, Juab County, Utah

Dear Mr. Anderson:

This letter is written in response to your letter received March 29, 2004, wherein you requested release from the permit and the reclamation surety for your Keystone Ridge / Mammoth small mining project. You have informed this office that you will no longer be doing work at this site, but that material will only be taken from the Lime Peak Quarry site for the EPA remediation work in the Eureka Mining District.

Your letter stated that reclamation would be completed at the site as soon as weather will allow. As you are aware, we are unable to release your permit and reclamation surety bond until full reclamation is completed and reclamation standards have been met.

When you feel this site is ready for full release, please contact us at that time, so we can perform a site inspection to verify that full release can be made.

Sincerely,

*for* Tom Munson  
Senior Reclamation Hydrologist
